CONTEMPORARY VISIONS – VIDEOART IN LOOP
IL CONTEMPORANEO IN CONTEMPORANEA | THE VIDEOART BIANNUAL
curated by Roberto Ronca

19 ARTISTS | 53 LOCATIONS

1st > 15th June 2017
WORLDWIDE

Contemporary Visions ∞ Video Art in LOOP is the event that involves video art in a project shared simultaneously in different parts of the world.

THE CONTEMPORARY IN CONTEMPORARY: this is the will of AIAPI to transform an exhibition in an international event involving the world and makes it joined in the art.

Different locations in the world, unusual and unexpected places that become places of art that can be used by the public at any time.

The people approach contemporary art with a widespread distrust from the habit of thinking that it is a niche product, devoted only to experts and detached to most of people.

Art, in fact, belongs to everyone and belongs to everyone.

At the moment in which art it is produced by the artist it begins to belong to the people, who can fully enjoy the value even, and perhaps especially, not just where people expect to find it.

This is when art becomes of all simultaneously in many parts of the world, people of different cultures live similar experiences, feeling close.

The art overcomes barriers, unites and uplifts to a broader reflection of reality, offering visions (contemporary) to which the eyes are grateful.

Contemporary Visions ∞ Video Art in LOOP involves artists from around the world in an event around the world.

Contemporary Visions ∞ Video Art in LOOP is structured simultaneously in different parts of the world on location also sometimes unexpected.

In each of these cities, simultaneously, in locations indicated by a shared map, the videoart in loop will be projected showing selected works of video art, so that people can access it at any time, even meeting them randomly.

The same works, the same artists, the same emotions at the same time in many places of the world.

For two weeks, from 1th to 15th June 2017, anyone can enjoy the free viewing of the works of contemporary artists.
